

Would you be interested in knowing when something new has been put up on the HOA Website.

You would no longer have to randomly check for updates; we will be creating an email alert to let you know when something has been added to the web site. The **NEW** addition will appear on the Welcome page and marked as ***NEW with date posted***. You will be directed where to find the information.

The email will read something simple like:

There is a new addition the FOXWOOD VILLAGE HOA WEBSITE. PLEASE CHECK IT OUT

Foxwoodvillagehoa.com/site

If this is something you might like then sign the attached sheet or just send an email to

webmasterfvhoa@optimum.net

Just say: I want to get the alerts.
