

Issues with Google to access our Web Site

Recently, Google has made some security changes. Some residents are seeing the warning below. As we have explained many times in the past, WE DO NOT have a security certificate for our web site. It is expensive and not **needed by us. We don't need it because on our site, we ask for no personal information or money.** Most web sites do. What can you do if you get this warning?

Your connection is not private

Attackers might be trying to steal your information from **foxwoodvillagehoa.com** (for example, passwords, messages, or credit cards). [Learn more](#)

NET::ERR_CERT_AUTHORITY_INVALID

Advanced

Back to safety

You can exit screen **OR click on ADVANCED** above on left side and the next screen appears:

This server could not prove that it is **foxwoodvillagehoa.com**; its security certificate is not trusted by your computer's operating system. This may be caused by a misconfiguration or an attacker intercepting your connection.

[Proceed to foxwoodvillagehoa.com \(unsafe\)](#)

1. **If you click on advanced you should see the above.** Because we are safe click on Proceed to Foxwoodvillage.com
2. If you choose not to want to do this, then I can suggest an alternative. Go directly to the website at foxwoodvillagehoa.com/site you will be able to click on same links on our home page or just access the same sites in the dropdown menu on the left.

3. **Another alternative is to access the web site on Microsoft Edge instead of Google.** Microsoft Edge isn't currently using the same security software. Go to Microsoft Edge which should be found on YOUR desktop. Look for the symbol below. Again, type in foxwoodvillagehoa.com/site and you can access the website.

REMEMBER: If Google or Google Chrome is your default browser; clicking links in the emails will take you to the security warning. To avoid the warning using Microsoft Edge you must go to it from the Desktop and type in our website name.

I apologize for the inconvenience however the warning is a good thing IF you do not know the site you are accessing. Unfortunately, we are caught in the spider's web. I hope this information helps you to continue to use our website and enjoy its many features.

HOUSE CALLS!

WE REMEMBER YOU VETERANS

Every year, thousands of people with diabetes develop foot ulcers. Left untreated, these ulcers can lead to serious complications.

Thankfully, there are now treatments available for foot wounds that have not healed. These innovative treatments actually stimulate growth of new tissue to encourage complete healing.

To find out more about this innovative treatment, simply call or visit and schedule an appointment.
